From the Editor, Harley Wadsworth

I had the C170 ready to fly to Oshkosh, but the weather did not look cooperative. So I drove. My brother, Tom, went with me. We had an opportunity to get all eight of us siblings together in Tennessee, which was time critical, and the C170 is not IFR. The Hurricane in the Gulf would have gotten in the way.

We had a great time with sibs in Nashville, stopped in Indiana to see our Aunt. And got to Oshkosh Sunday afternoon.

The EAA camp ground was closed to new arrivals because of recent storms which made the grounds wet and muddy. We were headed for the private camp ground just outside the Ultralight gate where Tom's college buddy, Baldy, had already arrived and had

From the President, Emilio Verastegui

Greetings Chapter members and friends of EAA Chapter 179.

This is my August writing for the Newsletter and we have had some exciting times in the last 3 weeks.

As you know, the EAA AirVenture was held this year from July 22nd thru the 28th. Our plan was to fly into Wittman Field on Sunday, the 21st, but we were not able to land that day at all. Barry Kromer, our YE Chairman, accompanied me to OSH.

Unfortunately for us, and unbeknownst to us, a huge rainstorm came through Saturday night and literally dropped a deluge on the field. Consequently, all parking and camping on any grassy areas was prohibited for new arrivals for several days. The reason given was that the ground was too soggy! I believe it was very soggy.....

I was finally able to bring the airplane up to Wittman from Fond du Lac airport on the 24th, the following Wednesday.

Other than that little hiccup, the experience at AirVenture was just as exciting and awesome as last year and must be experienced by all EAAers at least

(Continued on page 3)

From The President (Continued from page 2)

once in their lifetime. Every type, color and flavor of airplane was there at some point during the week. It was marvelous!

Speaking of new experiences, Jesus Perez and Joel Inventor completed their week at the Air Academy there in Oshkosh. When I saw them at the AirVenture, they both were very happy and super excited to have had the opportunity to participate. I think I convinced them to give a short presentation for the Chapter members next month, September. I look forward to hearing all about their time at the Academy and the AirVenture. I am sure it will be a great experience to hear about.

This month's presentation will be given by Patti Farley, with Angel Flight. The organization is very needed in our area. Without stealing too much of her thunder, I can say that Angel Flight is a nonprofit, volunteer-driven organization that arranges free, non-emergency air travel for children and adults with serious medical conditions and other compelling needs and was founded in 1983. Please come and listen to Patti Farley and hear more about Angel Flight.

You won't be disappointed.

One item that I must mention is the wonderful news regarding Rowan Phlieger. Please help me congratulate her as she has passed all the requirements in order to qualify for her Private Pilot Certificate! Well done, Rowan, and congratulations from all of us at Chapter 179!

She says she will be attending our Gathering this month, just before she starts her travels to Prescott, AZ to begin her University studies there. So, without much ado, CONGRATULATIONS, Rowan!

As you have heard me say many times in the last few months, our Chapter relies on and lives by volunteers. Each of us must and should do some sort of volunteer activity for the chapter so that our chapter survives and continues to grow. With the approach of LOEFI, about a month away on 21 September, many jobs and time slots still need volunteers. Fortunately for us, our LOEFI Chairman, Mike Paxson, has created a spreadsheet of sorts, where by you can sign-up for different positions and different time slots, in case you need to be more flexible in your volunteer activities. You can look elsewhere in the newsletter for more information from Mike as to how to sign up and volunteer. I think this is a great opportunity for those of you out there, scratching your head, saying to yourself, "How can I help Mike and the Chapter?" Now you have that chance to be the volunteer you always wanted to be!

And don't forget, you can help the Chapter and Barry Kromer, the YE Chairman, make our next Young Eagles day, September 7th, another grand success by being a volunteer that day. Barry would love for you to help him make it a successful day!

I am sure by now you all are rolling your eyes and wondering when I will stop this writing/typing... Well, you got your wish for now. All I can wish for is that every member and friend to come to our Gathering on the 3rd Tuesday of the month at the Copper Canyon Restaurant, on Gibson Ave, and be a friend to everyone you meet. In fact, make it a point to meet others, especially guests, new members and friends of the Chapter that happen to attend. Please wear your name tag, if you have one. There will be paper stickies available for name tags if you forget or do not have a plastic one.

See you there!

Emilio, Chapter President
505-280-2421

Harley, I forgot to mention in my letter writing, that [Eric Goldman, the Chairman of the Eagle Program](#), has set 24 August @ 0900 as the Eagles Fly Date, at KAEG.

This is for adults, 18 and over, who want to learn about flying and all the requirements.

He will be looking for volunteers, as pilots and ground crew, for that date.

If he has not sent anything to you yet for the newsletter, could you please include it somewhere at the bottom of my message?

Thanks,

E.

NMPA Upcoming Events - REMINDER

Mystic Bluffs Fly-In is this Saturday, 8-17-2019!

Our hosts request an RSVP so they can plan for the incredible buffet breakfast.

New Mexico Pilots Association
P.O. Box 94512
Albuquerque, NM 87199

[https://www.nmpilots.org/
content.aspx?sl=1370516455](https://www.nmpilots.org/content.aspx?sl=1370516455)

Hello. FYI, EDD COFFEY HAS GRADED SIGNIFICANTLY MORE TIE DOWN AND CAMPING AREAS. Please advise potential guests of this vast improvement. It is essential that Linda Peterson, whom coordinates the

buffet, be informed daily of the number of aircraft planning on attending.

From Cindy:

Pilots, please do NOT use the runway south of the turnaround it's way too soft.

CELEBRATING

50

EAA AIRVENTURE
OSHKOSH
2019

From the Editor (Continued from page 2)
staked out some high ground.

There were lots of people and planes already there. But new arrivals were not being allowed unless they had reserved hard surface parking. The grass was too soft to get aircraft into most of the grass areas. If we had flown, we would not have been able to arrive for Vintage parking until Wednesday morning. Still, there were a near record number of planes already arrived.

Van's Aircraft, RV-5

AirVenture was bigger and better than ever! The weather was mild and very pleasant for the whole week. Much cooler and dryer than the previous week had been.

There is so much to see and do. One can not begin to see and do it all. I like the Vintage, and Experimental planes especially.

It's all good!!! HW

Mechanics Illustrated, Baby Ace that got the EAA movement going. It flew a demonstration flight during the afternoon.

Burt Rutan's designs and lifetime contributions were celebrated. His Beechcraft Starship (above) and other designs were present. I enjoyed two of his talks at the Theater In The Woods.

Our brother, Van, flew in Wednesday morning and got parking in the newly opened area Far Far South.

Letter From Scholarship Winner, Matthew McKelvey

Dear EAA 179 Chapter members,

I am writing you this letter today to give an update into my progress in the CNM Aviation Maintenance program for which I was awarded the Bob Hartman Memorial scholarship for assistance in schooling costs.

I am happy to report that I have successfully passed the Airframe portion of the course with A 3.0 GPA and have been awarded a certificate of completion from CNM earlier this month. My last few classes were spent reviewing previous assignments from prior classes along with specific information and skills for aircraft inspections. I was given the opportunity to perform a 100 hour inspection of an Enstrom f28f helicopter to fulfill these inspection requirements, and learned some interesting things about the theory and operation of this specific helicopter. This was an interesting and new thing for me since most of our projects specifically dealt with fixed wing aircraft rather than rotor wing. All and all this last semester has been great fun and an awesome learning experience for all involved.

This week I have scheduled my second written test for this program, the airframe written, and am set to take it Tuesday, August 20th. Upon completion of this test I am scheduling my oral and practical tests with Dave Robertson, the local Designated Maintenance Examiner. I took the general written back in January, so as soon as both the O&P and the written are done, I will be eligible for the FAA issued Airframe Certificate, and will keep progressing to Power Plant courses.

Currently, most of my awarded scholarship money is going towards this next semester in which I am taking the beginning power plant courses such as Basic Engine Electricity, along with Reciprocating Engines 1, and Turbine Engine Theory. These classes are the first half of the power plant course and will be done this fall, leaving just one more semester in spring of 2020 to finish the remaining classes and graduate with two degrees (Applied Sciences, and Aviation Maintenance Technician) and two certificates (Airframe and Power Plant) in my hand.

Thank you all for your support as I make my way through this intense, stressful, fun, and worthwhile program. I have enjoyed every second, and look forward to my future career in aviation both working as an aircraft maintainer, and in my flying career as well.

Sincerely,
Matthew McKelvey
A&P pending

Sponsored by the Albuquerque EAA Chapter 179. The Experimental Aircraft Association (EAA) was founded in 1953 by a group of people interested in building their own airplanes. Today, EAA is a community of recreational pilots and builders dedicated to sharing our love of aviation. The Albuquerque EAA Chapter 179 is a 501c3 tax exempt charitable organization.

The [Land of Enchantment Fly In](#) is September 21, 2019

Young Eagles news August 2019

The next Young Eagles flight event will be September 7, 2019. Registration is opening August 18. Our events are targeting first time fliers. We won't turn any frequent fliers away, but if you have taken the same kid flying more than 2 times, please suggest to them that they contact you personally for a flight rather than on our Young Eagle events, since that takes a flight away from some kid who has never flown.

Check out the event at Youngeaglesday.org. If you are a pilot and want to fly, make sure to sign in to that page and volunteer. Volunteers for the pancake breakfast, and volunteers to help with registration can also sign in on that site. Thanks for all your help in making these events successful.

Respectfully submitted,

Barry Kromer

Consider volunteering for activities or joining our local chapter 179. Chapter 179 membership dues are \$20 for an individual member, \$30 for a family. [Join Now!](#)

LOEFI Update From Mike Paxson

Greetings Chapter 179 members and happy August! I hope that you have all been enjoying the summer and have been able to escape some of this heat. If you were able to go attend Oshkosh a few weeks ago, I hope you had a wonderful time and I look forward to hearing some stories from the event. Maybe next year will be my lucky year to attend.

With August nearing its midpoint, it is of no surprise that the Land of Enchantment Fly-In is fast approaching. I want to send out a big thank you to everyone who has helped organize this event so far. It truly could not happen without the tremendous support we get from our members and all our donations. I believe this year is going to be another great year for LOEFI.

The 2019 Land of Enchantment Fly-In will feature a few different items this year. First of all, it is happening later this year due to another large event happening in Albuquerque. Instead of usual late August date, we moved it to September 21st. Secondly, we will be charging attendees for food this time. We decided that this may bring in a little extra money to put towards EAA179 expenses, primarily scholarships. We will be charging \$5.00, which will be good all day. Not a bad deal if I say so myself. Thirdly, we also are going to be moving the public parking to the field behind the Bode and Bernalillo County Sherriff hangers. This will hopefully alleviate some of the parking issues we've dealt with in the past. That being said, we will need some help walking the parking area down to pick up any debris. The date is still to be determined, but it will most likely be September 19th starting at 0800. Please let me know if you can assist this morning.

We are also still looking at many volunteer roles to fill. I have created a convenient online sign-up form that allows you to sign up for a specific slot at a specific time this year. That way you can volunteer with us for part of the day and enjoy the event the rest of the day. As of now, the roles consist of cooking, assisting at the Youth Builder's Corner, assisting with the pilot welcome, introducing seminar speakers, welcoming the public at the entrance gate, plus a few more. Please visit event sign-up page at <https://www.signupgenius.com/go/8050E48ADA72FA6FA7-2019> to sign up for a slot. You can also visit our EAA Chapter 179 Facebook page and our website, www.loefi.org, and click on the "Sign Up Now/SignupGenius" button.

Finally, we will be needing all the support we can get on September 20th to help set up for the 2019 Land of Enchantment Fly-In. Plan on meeting at the large Bode hanger at 12:00 to start setting up. You can also sign up for this day on the event sign-up page mentioned above. This is also a good time to remember to bring any aviation-related items you no longer need for our Fly Mart. If you are not familiar, our Fly Mart is a place in the hanger where we sell aviation-related items, which help raise additional funds for our scholarships. And don't forget, all the volunteers that assist setting up on September 20th get a free dinner at 5:30 PM!

Thank you for your time reading this article and I look forward to seeing you out at the 2019 Land of Enchantment Fly-In!

Mike Paxson
2019 LOEFI Chair
