

COVID-19 Information

EAA Chapter 179's Land of Enchantment Fly In 2021 (LOEFI) is ON!

Based on recommendations from the Centers for Disease Control and the current State of New Mexico Public Health Order pertaining to COVID Safe Practices, masks are required for everyone in indoor areas and in crowded outdoor settings. Our expectations mirror those defined for Balloon Fiesta as of 9/1/21.

Our main focus is a safe event for our pilots and crews, volunteers and spectators. Last year, we started looking at a variety of scenarios based on the changing public health orders. Changes include:

- Food Trucks rather than providing our own food service
- Moved several exhibits outdoors
- Larger Seminar venue for better ventilation and spacing
- Increased spacing of Exhibit Hall tables
- Increased spacing in (outdoor) dining area
- Eliminated several high touch youth activities
- Provide hand sanitizer stations
- Signage to communicate this protocol

Current COVID Safe Practices for LOEFI 2021:

- Masks are required in all indoor areas.
- Masks are required outdoors if unable to maintain distancing from those outside your household.
- Increased physical distancing is encouraged in all areas.

COVID-19 Warning – An inherent risk of exposure to COVID-19 exists in any public place where people are present.
